30 April 2025

Quarterly Activity Report - Period ending 31 March 2025

Australian natural biotechnology company Skin Elements Limited (ASX: SKN) (Skin Elements, the Company) is pleased to present its Quarterly Activity Report for the period ending 31 March 2025.

Quarterly Highlights

- **ECO-Nurture sustainable, horticultural plant bio stimulant trials on kiwi fruit orchards in New Zealand nearing completion ahead of planned commercial roll-out H2, calendar 2025.**
- **The SuprCuvr disinfectant formula continues evaluation as a 3 in 1 cleaner and disinfectant in public health and transport sectors – is in use on train carriages in Melbourne**
- **Review of packaging design and formulation underway in respect of large-scale distribution opportunity for a white label Soléo Organics sunscreen product in the retail pharmacy sector**
- **Oversubscribed non-renounceable entitlement issue successfully completed, raising $656k – including $143k in oversubscriptions.**
- **R&D Rebate advance of $133k received in the quarter resulting from the eligible R&D expenditure for FY2025.**

SE Formula™ – the Cornerstone of our Business

The SE Formula has been developed by Skin Elements over the last 16 years and is the core of every natural product we develop. Products with the SE Formula™ have scientifically proven efficacy while using only natural and plant-based ingredients and have come to be trusted by consumers.

To date, the Company has developed four core formulas, each with potential to provide viable, efficacious alternatives to widely-used chemical based products in mass markets globally. These formulas form the basis of Skin Elements' product range - Soléo Organics, SuprCuvr, ECO-Nurture and PapayaActivs Therapeutics – and underpin its value proposition.

Skin Elements has a three phase development process leading into commercial scale production and sales:

Phase 1. Pure research and development to undertake investigations into natural organic ingredients and processes to prepare prototype formulations.
Phase 2. Produce test batches and undertake product trials, test marketing and regulatory certifications.
Phase 3. Negotiate distribution agreements and commence scale up production and launch into commercialisation.

info@skinelementslimited.com

During the quarter, Skin Elements' continued investment in the research and development of its proprietary plant-based, high-performance SE Formula biotechnology and has continued to build initial traction in Phase 3 negotiations on distribution agreements and commercial scale production across its product ranges.

Commenting on the quarter, Skin Elements Executive Chairman Mr Peter Malone said;

"Skin Elements enjoyed another productive quarter, highlighted by the continued progression of our core formulas into Phase 3 of our 3-phase approach to product development. In Phase 3, the ECO-Nurture horticultural-specific bio stimulant and SuprCuvr plant-based hospital-grade disinfectant are undergoing successful trials in large-scale settings ahead of planned commercial roll-outs of both products. Corporately, the successful completion of our oversubscribed rights issue, which raised $656k, during the period provided strong validation of the Company's product development and commercialisation plans for its product range, as we seek to bring large scale commercialisation opportunities to fruition. "

ECO-Nurture – Phase 3 Commencing

ECO-Nurture is a sustainable, horticultural-specific plant bio stimulant product developed from the plant-based SE Formula biotechnology research and development program as an effective alternative to chemical-based agricultural sprays currently used in crop disease protection globally.

During the quarter, the Company continued to work through the certification for wide spread adoption of ECO-Nurture for kiwifruit industry across New Zealand under added to Zespri's approved spray list under Zespri Crop Protection Standards Justified Approval (JA) protocols. Headquartered in New Zealand, Zespri is the world's largest marketer of kiwifruit with over $4 billion in sales annually.

Skin Elements trials of ECO-Nurture on kiwi fruit orchards in New Zealand are nearing completion. Subject to successful outcomes from what has been a 3-year trial process on various kiwifruit crops, the Company plans to move to the commercial roll-out of ECO-Nurture in the second half of 2025. It will also seek to expand the of ECO-Nurture into other crop lines, including grapes, apples and pears.

SuprCuvr - Phase 3 Commencing

SuprCuvr is a TGA registered hospital-grade disinfectant made from the Company's proprietary 100% plant-based formula. It combines the world's highest level of efficacy against viral and bacterial infection with a 100% plant-based organic input certified formula to present a significant market opportunity for a chemical-free disinfectant in large-scale settings such as food manufacturing, hospitality retailing businesses, public transport and health.

Test market assessment and qualification of SuprCuvr continued during the quarter, and continues to deliver encouraging outcomes. SuprCuvr is being used by cleaning contractors as a disinfectant of choice in urban train carriages in Melbourne, Australia.

This represents a large-scale, potential commercial opportunity for SuprCuvr to be utilised as a disinfectant, replacing widely used chemical-based products. Skin Elements will seek to leverage other opportunities for the commercial-scale use of SuprCuvr in other large-scale settings.

SuprCuvr is also currently undergoing trials in the agriculture sector in New Zealand.

For personal use only

Soléo Organics – Phase 3 Commercialisation Negotiations

Soléo Organics is an award-winning, natural and organic sunscreen formulation, providing a highly effective, high performance chemical-free sunscreen range. It was the first application borne out of Skin Elements' SE Formula research and development program.

The Company has previously advised that it is negotiations with a leading health retail group in the United Kingdom for distribution of the Soléo Organics sunscreen formulation under white label. During the quarter, a review of packaging, including design, was initiated along with a review of the formulation proposed to be used in the white label sun screen product.

Skin Elements is also working on the development of a new, premium SPF50 Soléo Organics sunscreen for the domestic market.

Skin Elements will update the market on any material progress on these, or any other, sales or distribution opportunities.

PapayaActivs Therapeutics – Phase 2 completing

During the quarter, Skin Elements continued to progress Phase 2 improvements in the PapayaActivs formulation and expansion of the product range. The Company also undertook small scale Phase 3 test market of skincare ranges through its online store.

PapayaActivs combines a high concentration of natural pawpaw extract with other active natural ingredients to help relieve the symptoms of skin conditions, like psoriasis, rashes, eczema, assist in healing of minor burns and wounds, and relieve mild muscle, joint and arthritic pain. PapayaActivs is listed on the TGAs Australian Register of Therapeutic Goods.

Corporate

Rights Issue

During the quarter, the Company completed a non-renounceable rights issue to existing shareholders on the basis of 1 new share for 5 existing shares. The entitlement issue was successfully completed with entitlement and shortfall applications received for the full 171,230,552 shares (and attaching 171,230,552 free options exercisable at $0.01 on or before 7 March 2028) raising $513,692 in cash.

The Company also received additional oversubscription applications for 47,830,803 shares (with 47,830,803 attaching free options exercisable at $0.01 on or before 7 March 2028) for additional $143,472 cash and these were issued accordingly as a placement under the Company's LR7.1 capacity.

Research & Development Rebate and Radium Facility

The Company's commitment to the continued research and development of its natural SE Formula Biotechnology sees it eligible for the Federal Government's R&D Rebate.

During the quarter, Skin Elements received a R&D Rebate advance of $133k provided by Radium Capital.

Summary of Operating Cashflows

The Company's progression through the three phase research program is reflected in the operating cashflows for the quarter, which included customer receipts of $43k and operational cash outflows included $244k invested in product manufacturing, staff and research & development, and $96k for marketing, administration and corporate finance costs. Net cash outflows from operating activities for the quarter were $299k. The Company continues to manage operational cashflows in line with operational and financing cash inflows.

In addition, during the quarter $54k was paid to Directors for services and $148k was paid to entities associated with the Directors for repayment of borrowings related to R&D project costs.

This announcement has been approved by the Board of Directors of Skin Elements Limited.

Add notes as necessary for an understanding of the sources of finance available to the entity.	**Total facility amount at quarter end $A'000**	**Amount drawn at quarter end $A'000**
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify): - R&D Rebate Facility	685	316
7.4 **Total financing facilities**	685	316

7.5 **Unused financing facilities available at quarter end**	369

7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.

- ***R&D Rebate Advance Facility Terms and conditions:***

Terms	Up to 18 months.
Total facility	$685K based on eligible R&D spend.
Drawdown	As at 31 March 2025, $316K has been drawn down.
Security	The facility is secured against the R&D Tax Rebate based on eligible R&D spend. The facility and interest is repaid on receipt of the R&D Rebate.
Interest Rate	15% p.a. pro rata.

8. Estimated cash available for future operating activities	**$A'000**
8.1 **Net cash from / (used in) operating activities** (Item 1.9)	(299)
8.2 Cash and cash equivalents at quarter end (Item 4.6)	249
8.3 Unused finance facilities available at quarter end (Item 7.5)	369
8.4 Total available funding (Item 8.2 + Item 8.3)	618
8.5 **Estimated quarters of funding available** (Item 8.4 divided by Item 8.1)	2.07

Note: if the entity has reported positive net operating cash flows in item 1.9, answer item 8.5 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.5.

8.6 If Item 8.5 is less than 2 quarters, please provide answers to the following questions:

1. *Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not*?

   Answer:

N/A

2. *Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?*

   Answer:

N/A

3. *Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?*

   Answer:

N/A

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.

(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – e.g. Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
