Quarterly Activity Report - Period ending 31 December 2021

Australian natural skin care company Skin Elements Limited (ASX: SKN) (Skin Elements, the Company) is pleased to present its Quarterly Activity Report for the period ending 31 December 2021.

Quarterly Highlights

- SKN delivers the world's highest rated against COVID 19 (7 log reduction) hospital grade natural disinfectant with production of SuprCuvr commenced.
- SKN executed an exclusive Australian and New Zealand SuprCuvr Distribution Agreement targeting sales volumes of 1.2 million litres for the Company's TGA-registered SuprCuvr natural disinfectant product.
- Dedicated SuprCuvr online shopping platform launched - at www.suprcuvr.com
- SKN will receive \$493k R&D Rebate for the R&D expenditure invested in the six months to 31 December 2021.
- SKN has cash on hand of \$1.565 million at 31 December 2021 with net operating cash outflows of \$1,120k for the quarter invested into the launch of SuperCuvr.

SKN delivers SuprCuvr Hospital Grade Disinfectant with Production Commenced

The Company formally launched its SuprCuvr hospital grade disinfectant following registration by the Therapeutic Goods Administration (TGA) achieving 99.99999% (7 log reduction) effectiveness against COVID 19 in independent laboratory testing.

SKN's research indicates that this is the first and only approved disinfectant globally with such a high rating efficacy against COVID 19.

With registration now in place, the Company has procured manufacturing and ingredients supply chain facilities with the ability to produce 100,000 litres per day of SuprCuvr hospital grade disinfectant in intermediate bulk containers (IBCs) on an ongoing and increasing basis.

The Company is also assessing additional batching facilities to ensure availability of SuprCuvr products through Pacific Health Care (www.pacifichealthcare.com.au) and for sale through the Company's online store (www.sknlife.com.au.)

Exclusive Australia and New Zealand SuprCuvr Distribution Agreement

Skin Elements executed a binding Agreement with Pacific Health Care Pty Ltd (**Pacific Health**) for the exclusive distribution of Skin Elements' TGA registered SuprCuvr hospital grade disinfectant in Australia and New Zealand (**Agreement**).

The Agreement represents the next step in the commercialisation strategy for SuprCuvr. It will allow Skin Elements to leverage off Pacific Health's existing health distribution networks and immediately drive sales into the Australian and New Zealand markets, and underpin the Company's operations to further execute its global commercialisation strategy.

The Agreement is for an initial term of 12 months, which will be extended for up to an additional 48 months in total, subject to achievement of minimum sales volumes each year.

The Agreement targets sales volumes of 1.2 million litres of SuprCuvr in year one, and total anticipated sales volumes of 5.5692 million litres over the duration of the Agreement, subject to the achievement of annual sales targets.

Pacific Health Care was established in 1987, and has a successful track record of selling and distributing a range of consumable medical products into the Australian medical industry.

Its customers include, state governments (NSW Health, WA Health, Queensland Health and Tasmania Health), hospitals (St John of God Hospitals and Perth Children's Hospital), clinics, aged care facilities, general practitioners and dentists, surgical and medical sub-distributors, veterinary clinics, and at home patients.

Further details of the Agreement were provided in ASX announcement of 17 January 2022.

Research & Development Rebate

With the Company focus on development of its natural antimicrobial technologies, SKN will receive a 2022 R&D Rebate of \$493k for the R&D expenditure invested in the six months to 31 December 2021.

LDA Capital \$20 million equity funding facility

SKN has entered into an equity funding facility agreement (**Agreement**) with LDA Capital, under which LDA Capital has agreed to provide Skin Elements with up to \$20 million in committed equity capital over the next 36 months (ASX announcement, 6 April 2021).

The Agreement enables Skin Elements to issue shares to LDA Capital over the next three years at the Company's discretion at a floor price to be determined by Skin Elements and receive funds for the issue of those shares.

The Agreement allows Skin Elements to access committed equity capital on a flexible basis by managing the timing and size of each capital drawdown. The Agreement ensures that Company has access to additional equity capital as required to support its growth into new markets, support existing sales channels and fund the anticipated commercial scale sales and distribution opportunities for SuprCuvr and the Company's other product lines.

Skin Elements expects to make the first initial drawdown of this facility in March 2022 quarter.

Entitlement Issue to raise over \$2 million

The Company has advised that it will be undertaking a non-renounceable pro rata entitlement issue at an issue price of \$0.08 per share on the basis of one (1) new share for every fifteen (15) ordinary shares held. Shareholders who subscribe for the entitlement issue will also receive one attaching listed option for every two new shares issued, exercisable at \$0.10 and expiring on 15 March 2024.

Under the entitlement issue up to 25,298,484 shares and 12,649,242 attached options will be issued to raise up to \$2,023,879 (before costs). An updated timetable has been announced with the issue of a prospectus and entitlement application forms in February with completion in March 2022.

Summary of Operating Cashflows

The Company's research and development focus is reflected in the operating cashflows for the quarter, which included customer receipts of \$48k, and \$669k invested in product manufacturing, staff and research and development. Marketing (\$130k), corporate (\$239k) and administration (\$130k) made up the balance as detailed in the Appendix 4C, resulting in net cash outflows from operating activities of \$1,120k for the quarter (\$701k for the six months) and cash on hand of \$1.565 million.

Included in the operational cash outflows for the quarter is \$90k paid to entities associated with the Directors for executive services and directors' services in accordance with services agreements, details of which have been disclosed in the Company's 2021 Annual Report.

Whilst SKN continued to position its SuprCuvr natural disinfectant and Invisi Shield® natural sanitiser products for launch during the quarter, the impact of ongoing COVID-19 restrictions resulted in a delay of orders from national and international distributors for its range of skincare products - with restrictions on travel which reduced ability to meet with distributors and new customers. Additionally, the Company also experienced increased costs and shipment timeframes for national and international freight, and delayed production and the delivery of inventories.

Commenting on the quarter, Skin Elements Executive Chairman Mr Peter Malone said;

"With SuprCuvr now registered with the TGA and commercially launched with the appointment of Pacific Health Care to distribute in Australia and New Zealand, and capital raising programs now secured, Skin Elements is ready to execute its corporate and operations plans to deliver the Company's expanded product range, including the new SuprCuvr natural disinfectant, for Australia and also into global markets."

This announcement has been approved by the Audit and Risk Committee of the Board of Directors of Skin Elements Limited.
