## Quarterly Activity Report - Period ending 31 March 2022

Australian natural skin care company Skin Elements Limited (ASX: SKN) (Skin Elements, the Company) is pleased to present its Quarterly Activity Report for the period ending 31 March 2022.

### Quarterly Highlights

- Exclusive Distribution Agreement for SuprCuvr in Australia and New Zealand executed with Pacific Health Care Pty Ltd
- Pacific Health Distribution Agreement delivering strong results;
  - First order, of \$1.1 million, of SuprCuvr delivered under the Pacific Health Agreement
  - SuprCuvr now stocked in 168 IGA and 15 Good Grocer IGA supermarkets in Western Australia
- Pacific Health Agreement has the potential to deliver total sales volumes of 5.5692 million litres of SuprCuvr over the duration of the Agreement if sales targets are met
- Production of SuprCuvr hospital-grade natural disinfectant is underway with the ability to produce 100,000 litres of SuprCuvr per day with potential to further increase production to meet future demand growth
- \$371k R&D Rebate advance received for the R&D expenditure invested in the six months to December 2021
- Sound cash at quarter-end of \$1.029 million - cash position doesn't include the \$1.1m SuprCuvr order with Pacific Health which will be accounted in the next quarter

### SKN Delivers First Order of \$1.1 million SuprCuvr Hospital Grade Disinfectant

Following the registration of its SuprCuvr hospital grade disinfectant by the Therapeutic Goods Administration (TGA), SKN formally launched SuprCuvr by executing a binding agreement (Agreement) with Pacific Health Care Pty Ltd (Pacific Health) for the exclusive distribution of SuprCuvr in Australia and New Zealand (see ASX announcement 17 January 2022).

Outstanding results have been achieved in the first nine weeks of the of the Agreement with Skin Elements delivering 120,200 litres of SuprCuvr in 86,040 units of various sizes and invoicing \$1,140,504 in sales for the quarter, with normal 30-day EOM payment terms.

SKN's research indicates that SuprCuvr is the first and only approved disinfectant globally achieving 99.99999% (7 log reduction) effectiveness against COVID 19 in independent laboratory testing.

With TGA registration now in place, the Company has procured manufacturing and ingredients supply chain facilities with the ability to produce 100,000 litres per day of SuprCuvr in intermediate bulk containers (IBCs) on an ongoing basis, with the ability to increase production to meet future demand growth.

The Company is also assessing additional batching facilities to ensure availability of SuprCuvr products through Pacific Health Care ([www.pacifichealthcare.com.au](http://www.pacifichealthcare.com.au)) and for sale through the Company's online store ([www.skinlife.com.au](http://www.skinlife.com.au).)

### **Research & Development Rebate**

With the Company focus on development of its natural antimicrobial technologies, SKN has received a R&D Rebate advance of \$371k for the R&D expenditure invested in the six months to December 2021.

### **LDA Capital \$20 million equity funding facility**

SKN entered into an equity funding facility agreement (**Agreement**) with LDA Capital, under which LDA Capital has agreed to provide Skin Elements with up to \$20 million in committed equity capital over the next 36 months (ASX announcement, 6 April 2021).

The Agreement enables Skin Elements to issue shares to LDA Capital over the next three years at the Company's discretion at a floor price to be determined by Skin Elements and receive funds for the issue of those shares.

The Agreement allows Skin Elements to access committed equity capital on a flexible basis by managing the timing and size of each capital drawdown. The Agreement ensures that the Company has access to additional equity capital as required to support its growth into new markets, support existing sales channels and fund anticipated commercial-scale sales and distribution opportunities for SuprCuvr, along with the Company's other product lines.

Skin Elements expects to make the first initial drawdown of this facility in the coming quarter.

### **Entitlement Issue to raise over \$2 million**

The Company has advised that it will be undertaking a non-renounceable pro rata entitlement issue at an issue price of \$0.08 per share on the basis of one (1) new share for every fifteen (15) ordinary shares held. Shareholders who subscribe for the entitlement issue will also receive one attaching listed option for every two new shares issued, exercisable at \$0.10 and expiring on 15 March 2024.

Under the entitlement issue up to 25,298,484 shares and 12,649,242 attached options will be issued to raise up to \$2,023,879 (before costs). An updated timetable has been announced with the issue of a prospectus and entitlement application forms in May with completion in June 2022.

## Summary of Operating Cashflows

The Company's research and development focus is reflected in the operating cashflows for the quarter, which included customer receipts of \$29k, and \$776k invested in product manufacturing, staff and research and development. Customer receipts for the quarter, do not include the \$1.1 million SuprCuvr order from the Distribution Agreement with Pacific Health. This will be accounted in the subsequent quarter.

Marketing costs of \$99k, and corporate and administration costs of \$61k made up the balance of outflows as detailed in the Appendix 4C, resulting in net cash outflows from operating activities of \$536k for the quarter (\$1,237k for nine months) and cash on hand of \$1.029 million.

Included in the operational cash outflows for the quarter is \$90k paid to entities associated with the Directors for executive services and directors' services in accordance with services agreements, details of which have been disclosed in the Company's 2021 Annual Report.

Over the past two years, COVID-19 has impacted SKN with restrictions on travel and reduced ability to meet with distributors and new customers, increased costs and shipment timeframes for national and international freight, and delayed production and the delivery of inventories. With many restrictions now starting to be lifted, SuprCuvr natural disinfectant and Invisi Shield® natural sanitiser products can now play a part of the strategy of adapting to live with COVID-19.

### **Commenting on the quarter, Skin Elements Executive Chairman Mr Peter Malone said;**

*"With SuprCuvr now registered with the TGA and commercially launched with the appointment of Pacific Health Care to distribute in Australia and New Zealand, and capital raising programs now secured, Skin Elements is executing its corporate and operations plans to deliver the Company's expanded product range, including the new SuprCuvr natural disinfectant, for Australia and also into global markets."*

This announcement has been approved by the Board of Directors of Skin Elements Limited.
